Men's 60 Metre Final at 2003 OTFA Jv-Sr Championships

The **OTFA** wishes to formalize its decisions and position with respect to the disputed Senior Men's 60m race contested on Sunday, February 23 at York University.

A re-telling of the events will likely serve no purpose at this point since there are bound to be disputes even with respect to the facts.

The **OTFA** believes all parties acted without malice and in the best interest of the sport and the athletes, and that they did so given the information and experience at hand. Further, the **OTFA** believes that all parties acted within the bounds of their responsibilities as they perceived them to be at the time.

The principle finding of the **OTFA** is that the results of the original race will stand and that the results of the re-run will be nullified.

This decision is based on the position offered by the National Official's Council which advises that the results of the original race should stand.

Further, the **OTFA** finds that:

- meet director of record, Roman Olszewski, and those others who were consulted, acted responsibly and reasonably under the circumstances by trying to protect the integrity of both the 60m event and the entire track meet. Decisions made at the time were made in the context of time/schedule constraints, pressure from outside groups and an interest in being fair to the athletes and the officials
- this was a unique situation not formerly encountered by any of the groups, officials, meet director, athletes or coaches. There was no precedent to look to for guidance
- the meet was not only an **OTFA** Championship, but it was hosted by the **OTFA** as well. It is incumbent on the **OTFA**, therefore, to determine after the fact if the right decisions have been made. Given the unique circumstances of the situation, an internal investigation was appropriate to see if the decisions that were made had been as fair as possible to all groups, and to determine if the rules had been properly and uniformly interpreted and applied. This is notwithstanding that a formal appeal or protest had not come from Kitchener-Waterloo track and field club (while a formal protest was received later, it did not fall within the time frame outlined by IAAF rules).

This internal review should have come regardless of whether a formal appeal had been filed on time, and regardless of other circumstances.

- given information, interpretations and details which were forthcoming after the incident, it is reasonable for the **OTFA** to reinstate the original results.

We believe the **OTFA** would not have acted properly if it had simply followed the IAAF protest and appeals procedure and not questioned the incident after the fact. We have policy and process to deal with those incidents which we know will arise from time to time, but it is hard to have policy and process to deal with unique situations which have never arisen before, and in which the applicable rules may have several different interpretations.

This is not the conclusion of this incident as it is evident there are procedural errors and misinformation concerning the appeal process. We should note that given this, we expect that ALL parties stay abreast of rule changes (ideally own their own rule book), and that we have updates provided to us from Athletics Canada on a timely basis, especially when there is concern about the 'intent' of a rule as opposed to the application of a rule. As well the **OTFA** will provide a clear and concise outline of how all appeals are to be presented and handled at any **OTFA** sanctioned event to prevent further issues.

We thank all parties for their participation in this interesting and consuming affair and wish you all the best in your future endeavours.

UNOFFICIAL Event / Epreuve 6 Men / Hommes 60 Metre Open / Senior Re-run

Heats - Sat., Feb. 22, 2003 - Finals - Sun., Feb. 23, 2003

Open: # 6.49 1993.03.06 Mark MCKOY

Senior: ! 6.49 1993.03.06 Mark MCKOY

Name / Nom Yr/An Team / Équipe Finals Points

Finals
